INVITATION

Pandit Deendayal Petroleum University, in association with Solar Energy Society of India with the vision of creating a pool of Energy professionals, has taken the initiative to provide a knowledge sharing platform to discuss the recent issues and challenges faced by the Solar Industry. The dramatic changes in solar business environment and growing need of energy across the globe has pronounced the role of each value chain function. Focus needs to be drawn to the challenges, regulatory scenario and success drivers thus unveiling the investment opportunities and innovative funding models. To gain and deliver more insights on the industry, we invite you to "1st BRIC Solar".

THEME

BRIC Solar, hosted by Solar Research and Development Centre, is aimed at discussing about innovative Indian Solar Energy Sector. The theme of this BRIC Solar is to provide a bridging platform between industrial challenges and viable academic solutions. This brings BRIC Solar to born.

WHO SHOULD ATTEND

- Industrial Leaders: Promoters, Manufacturers, Financial Experts
- Government Leaders: Regulators and Policy makers
- International and domestic developers and institutional investors
- Entrepreneurs and Green Builders
- Energy Academicians
- Energy & REC Consultants and Analysts
- Future Leaders: Students

SPEAKERS PROFILE

CEO / R&D Heads / Top decision makers from leading Solar organizations from Indian Public / Private Sector. Top officials from Political Regulatory Authority Bodies such as MNRE, EPD, GoG and other value chain partners. Scientists and R&D personals from the sector.

EVENTS ORGANIZED ALONGSIDE

Paper Presentation in Solar Conclave 2014

A national level Paper presentation Competition is being organized as a part of BRIC Solar by School of Solar Energy, PDU on 18th February 2014 at PDU Gandhinagar.

BENEFITS OF ATTENDING

This conclave presents a perfect networking opportunity for member's involved different parts of value chain of solar energy sector. It also aims to serve as a knowledge disseminating experience for the participants and students. It's an exercise to have a better understanding of the nuances of solar energy sector from leading professionals and players in the industry.

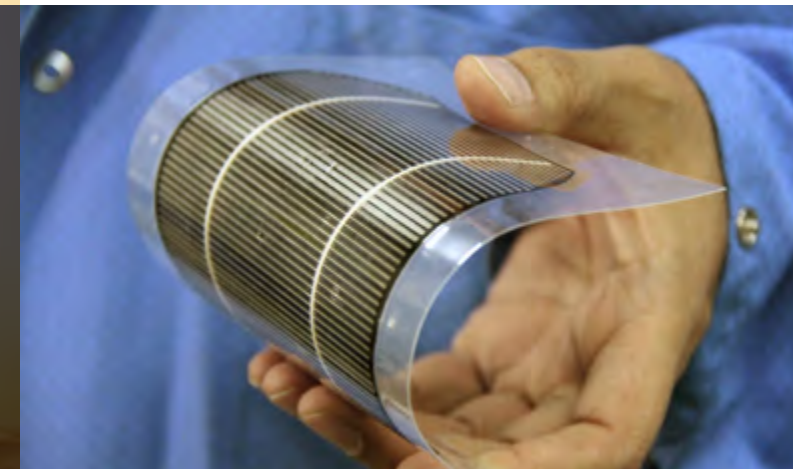

ABOUT SRDC

SRDC & School of Solar Energy, PDU are taking an initiative to organize 1st BRIC Solar at PDU Gandhinagar, Gujarat. BRIC Solar provides a connective platform for knowledge sharing, business opportunities and sustainable development.

BRIC Solar would be a national symposium with distinguished personalities from Govt. of India, Govt. of Gujarat and other regulatory authorities, developers, financial institutions, consultants, researchers and policy makers sharing their views.

BRIC Solar will hold discussions contemplating over current issues like perspective policies in driving development of solar power in India, technological research and development, potential of Renewable Energy Certificates, Energy Management and energy security.
